

Subject: Application for Jr. Web Developer

Dear Hiring Manager,

I am writing to apply for your Jr. Web Developer position at Programming Hero which is currently advertised on LinkedIn.in. I saw your recent win at the annual Tech Industry Awards and was impressed by your CEO's acceptance speech. It's clear that you are a pioneer in the industry, and I would be thrilled to have the opportunity to work with such a brilliant team.

As a dedicated Developer, I am preparing myself to see an opening for a Junior Web Developer role. I have experience in HTML5, CSS3, and JavaScript(ES6) combined with my recent project in full-stack development, And I am confident I have the skills to help your company succeed.

I am familiar with C++ and Python programming languages and also have proven to have exceptional problem-solving skills. I am also interested in user experience design and spend a lot of my time learning about it. I believe this has helped me immensely when it comes to conceptualizing projects because I am not only thinking of the end goal, but also the user experience. I strive to build powerful websites with a logical layout that is designed to convert visitors. I work well under pressure and have no problems meeting tight deadlines. I enjoy the collaborative aspect of this job, and I'm always open to input and advice from my co-workers.

I would be honored to contribute my expertise and work ethic to support the team. You can be confident that I would work hard to help achieve company goals and growth. And I believe it would be a great learning opportunity. Thank you for your consideration, I hope to speak to you soon to learn more about this opportunity.

Sincerely,

Md. Omar Shahariar
